

Welcome to the *Teaching with Gold Experience 2nd Edition* videos.

These are:

- short, 3-6 minute training videos to support you as you implement the course
- bite-sized; each covering one topic
- available for you to watch as and when you need them

The videos cover four themes: *Overview*, *Planning and Assessment*, *Digital*, and 'How to...', which looks at some ways you could take your lessons even further.

You can watch these videos in a number of ways:

- Choose whichever videos you want to review. Watch any or all of them.
- Watch a video alone or watch with other teachers and then have a follow-up discussion.
- Watch the videos before you start teaching with *Gold Experience 2nd Edition* and then go back to them once you're teaching, as you'll then have a different perspective.

We hope you find that these videos help you get the most out of teaching with *Gold Experience 2nd Edition* as you help your students progress in their learning.

| THEME | VIDEO TITLE | LEARNING OUTCOMES |
|----------------------------------|--|--|
| Overview | Course introduction | I understand key features of the course. |
| | Components for students | I understand the role of each component for the student. I understand how components work together |
| | Components for teachers | I understand the role of each component for the teacher. I understand how components work together |
| | A unit walk-through | I understand the structure of the unit. I understand the role of sections of the unit. |
| Planning & assessment | Planning for different class scenarios | I can easily adjust the course to my specific situation (for example, the number of hours I have, what I need to focus on). |
| | Managing differences in the classroom | I can easily select appropriate material and adjust the level of material to help specific students with specific issues. |
| | Formative assessment | I know what the benefits of formative assessment are, and how I can do this in my classroom with this course. |
| | Summative assessment | I know what the summative assessment package consists of, where to find it and when to use it. |
| | Exam practice | I know what exam practice material is available, and how I could use it in my class. |
| Digital | Presentation tool | I understand the key features of the presentation tool and how it relates to the print components. I understand how to use it. |
| | Teacher's resources | I understand what resources are available in Teacher's area. I know where to find different resources. |
| | Student's Portal | I understand what resources are available in Student area. |
| | Assignable activities and gradebook | I understand how to assign activities and how to use the gradebook. |
| | Student's mobile app | I understand how to access the student app and what it includes. |
| How to... | How to encourage independent learning | I understand what independent learning is and why it is important. I know what tools are available in this course and how to use them. |
| | How to teach for exams | I understand what I need to consider as an exam teacher. I know what tools are available in this course to help, and how to use them. |
| | How to flip the classroom | I understand what flipping the classroom is and why it is important. I know what tools are available in this course and how to use them. |
| | How to teach with Projects | I understand the benefit of teaching with projects. I know how to use the projects included in this course. |
| | How to teach with Readers | I understand the benefit of teaching with Readers and how to use them. I know how to find suitable readers for my course. |
