Place the five toys or the five Picture Cards on a table. Cover them with a cloth. Say *Close your eyes!* Secretly remove one of the toys and hide it behind your back.

Lesson summary

These pictures show children playing with friends and sharing toys. The idea is to help students understand that we all need to share things, and that sharing our own things can make us happy.

- Make Mickey come out of his home and greet you and the students.
- Hold up your Student's Book so Mickey and the students can see.
-  Look, Mickey. Toys! Look at the girls. One, two girls. They're sharing the ball.
-  Look. One, two teddy bears. They're playing and sharing their toys.
-  Look at the boys. They have cars. I like the cars!
-  Look. One, two, three, four ... a lot of blocks! The boys are sharing the blocks.
- Make Mickey look with interest.
-  Can you see a ball?
- Make Mickey find a ball and say *Ball*. Have students say it after him.
- Repeat with *blocks*, *teddy bears*, and *cars*.
-  Make Mickey say the plurals of the words where appropriate. If students pick it up, they can repeat what Mickey says.

1 Look and say.

- Have students look at the pictures in their Student's Books and say any words they know (*happy, excited, ball, car, blocks, teddy bear, one, two, three, four, red, green, blue*).

7.12 Look and listen.

- Play the audio.
- Have students follow the listening path with their fingers as they listen.
- Play the audio again, pausing it after each section. Have students repeat the toy words.

3 Mark your favorite picture.

- Act as if you are thinking and then point to one of the pictures and smile.
-  I like this picture! I like the (ball). The (girls) are happy. Which picture do you like?
- Help students think, decide, and mark the picture they have chosen. They may just copy your answer, but that's OK.

Your ball Play.

- Have students stand in a circle. Hold the ball.
- Look directly at one student. Say (*Daniel*), *your ball!* Roll the ball into the middle of the circle.
- That student gets the ball and takes it back to their place in the circle.
- The student with the ball looks at another child. Help him/her say (*Maria*), *your ball!* and roll the ball into the circle.
- Continue until everyone has had a turn.

 To ensure that everyone has a turn, have students sit down after their turn. The ball must be passed to someone who is standing up.

 **Social awareness:** This game encourages sharing. When we throw a ball to another child, it is momentarily their ball. Then they throw it back again. This helps children realize that when we share, we are not giving something away permanently; it often comes back again.

Workbook p56

1 Point and say.

- Look at the pictures together and have students point and say any words they know.

2 Which picture is different? Mark.

- Point to the first picture and ask *Is it a toy?* (*No*)
- Repeat with the other pictures.
- Ask students which picture is different and have them point to it.
- Have students mark the circle under the picture that is different.

Goodbye

-  **0.2** Sing the Goodbye song.

Sing and move.

- Play the video and join in with the actions on the screen.
- Play the video again. Students join in doing the actions and singing the song if they can.
- Encourage students to have fun with the actions and not to worry if they struggle to remember the words.

About the project

This project develops students' fine and gross motor skills as they press out and play with their *Monsters, Inc.* matching pairs card game. The game demands concentration and observation and develops short-term memory skills. Students have to focus on the position and image of the cards in order to find the pairs.

 **2** **Make.**

- Help students press out their cards.
- Lay one set of ten cards on a table, face down.
- Turn over two cards. If they are the same, collect them up and say the name of the toy. If not, turn the cards over and try again.
- Once students understand the concept, they can play in groups or pairs.
- At the end of the game, have students show the pairs of toys they have won and say *A ball! I like my ball!*

 **Persistence and growth**

 **Social awareness:** When children play with others, they have to be patient, waiting for their turn, and must learn to accept possible defeat; both important life skills.

 *The game takes a lot of concentration at first. Students have to learn the rules and the procedure, as well as remembering where each card is. At first, students might not want (or be able) to say the toy words when they find a pair. That's OK.*

 **3** **Show and tell.**

- Have students lay the cards on a table so that the pictures are showing.
- Ask *Where's the ball?*
- Have them point to the two cards, then name the toys on each card.

-  Put the five toy Picture Cards, or actual toys (a ball, a block, a teddy bear, a doll, and a car) on a table. Have students choose one toy. They can do this in pairs, groups, or one at a time, depending on how they feel. Have each student pick one card or one toy, hold it up, and say *I like my (doll).*

 **4** **Stick.**

- Help students find and stick the star-shaped Mike sticker as a reward for completing the unit.

 **Persistence and growth**

Workbook p57
